Parkdale Elite Sports Pathway

“Elite Coaches, elite facilities & elite partners”

Parkdale Secondary College provides outstanding opportunities for all students. The college was recognised by the Department of Education and Early Childhood Development (DEECD) as a sport specialist school in 2012. Sport is one of many areas where student talent can shine. Through the development of the Elite Sport Pathway Program (ESP), students can follow their passion, while undertaking a well-rounded and rigorous academic program.

The Elite Sport Pathway is built around student participation in 4 key elements:

1. Conditioning – the undertaking of activities based around fitness, flexibility and strength.
2. Skill Development – specific skills developed around the chosen sport
3. Competition – students participating in school based, regional, state and interstate competitions
4. Community links – the Ambassador Model; students work in the community as college representatives

In 2013, Parkdale Secondary College opened a state-of-the-art 3 court gymnasium as well as a fully equipped fitness centre and redeveloped sporting fields on the school grounds.

The ESP program is made possible with a growing number of partnerships with governing and High Performance sports bodies including the Sandringham Dragons, Triathlon Victoria, Woodlands Golf Club, Victorian Netball League and Sandringham Sabres.

Proceeds raised from the ESP Golf event and Sportsman dinner go towards improving the school sporting facilities and equipment along with specialist coaching.

Parkdale ESP Graduates

Tom Lamb
West Coast Eagles

Brett Coletta
Australian under-age
Golf representative

Brandon Stenhouse
New York Yankees
